Using VTAC CourseSearch in six simple steps

Using the VTAC website will enable you to access important and up-to-date information about tertiary courses. CourseSearch does not require you to login and provides general information.

Step 1: Go to www.vtac.edu.au to open the Home Page (looks something like this):

Step 2: Click on CourseSearch

Step 3: Type in your key word and click GO e.g. Science

Step 4: Leave the information as is and scroll down to click on a course of interest or alter the fields by using the dropdown boxes

Step 5: Read through the course information. You may like to make notes for future reference.

Step 6: Click Go Back to return to original list or click Search Again to enter a new Key word.
